Room Design Alternative Project

Using the design grids below and the furniture templates, design 5 different living spaces. Some of these spaces could include: bedroom, kitchen, living room, rec room, outdoor living space, fitness room, etc. Each room will be graded according to rubric below each design grid. You will color, cut and paste the furniture templates to the design grids in whatever functional design you choose. You can also choose to draw your own templates if you cannot find what you want in the furniture templates. Each room design is worth 10 points. Be creative and be sure all of the elements described on the rubric can be found within your design.
