

Shoe Box Room Design Project

Name: _____ Class: _____

For your final project you will be demonstrating your understanding of the elements and principles of design by creating a room design. Your design should incorporate and demonstrate mastery of everything we have learned. When creating it consider balance, proportion, color, spatial arrangement, variety and unity. The final project is worth 60 points and will be graded on neatness, completeness, creativity, accuracy, and professional appeal. All of the items below must be included in your final project.

<u>Student Grade</u>	<u>Teacher Grade</u>	<u>Task</u>
0 1 2 3 4 5	0 1 2 3 4 5	Color Scheme Used: (Circle One) Neutral or Accented Neutral Analogous Split Complimentary Monochromatic Complementary Triad
0 1 2 3 4 5	0 1 2 3 4 5	Furniture *Balanced, correct scale/proportion, creative, floor/wall coverings, all glued/secure
Application of the Elements and Principles of Design Describe <u>one</u> example of the following located in the room. Be specific!!		
0 1 2 3 4 5	0 1 2 3 4 5	Line:
0 1 2 3 4 5	0 1 2 3 4 5	Space:
0 1 2 3 4 5	0 1 2 3 4 5	Shape:
0 1 2 3 4 5	0 1 2 3 4 5	Form:
0 1 2 3 4 5	0 1 2 3 4 5	Texture:
0 1 2 3 4 5	0 1 2 3 4 5	Pattern:
0 1 2 3 4 5	0 1 2 3 4 5	Overall Function *Is the space functional? Could someone actually live in it?
0 1 2 3 4 5	0 1 2 3 4 5	Accessories *Function of room, mood of room, creative, all accessories glued down/secure
0 1 2 3 4 5	0 1 2 3 4 5	Neatness *No glue showing; assembled soundly & professionally, furniture/accessories secure
0 1 2 3 4 5	0 1 2 3 4 5	Time Management *Class time used wisely and productively, engaged in the project during all class periods
Total Score: _____ / 60	Total Score: _____ / 60	

If needed, describe/explain anything special or unique about your room design on the opposite side of this paper.
