## Disney Character Makeover

Choose **TWO** Disney characters and give them modern makeovers. To help focus your designs, it may help to choose a specific decade and create a design in which the essence of the character is still recognizable, but with a modern twist.

Disney Character #1:	
Design Decade:	

Disney Character #2:	
Design Decade:	

## Design Descriptions

Create **TWO** designs that will meet the needs of your client. Write a brief description of the design and why it will flatter your client and meet their needs. Consider your clients body shape/silhouette, coloring, and reasons for the makeover while coming up with your designs. After describing both designs, sketch both designs for your Disney Characters. Follow the guidelines for professional mounting of each design and include them in your portfolio.
