

# Harmony

in Fashion

# 1. Harmony

- Harmony is created by following the principles (rules) of design when using the elements of design (tools).
- Harmony is most pleasing when it has both UNITY and VARIETY.
- All of the design elements are contributing to make a harmonious whole.

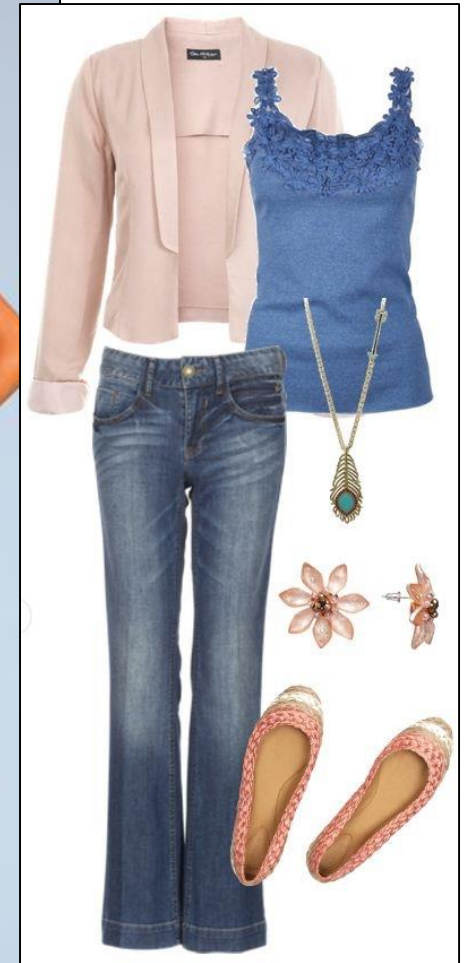

## 2. Variety

- Uses multiple elements of design to add interest and excitement to the outfit.

# 3. Unity

- Repeats one or more of the elements of the design to tie the outfit together.

# How is Harmony Achieved?

- **Variety:** *(What is different?)*
  - Texture below the skirt, flower above. Contrasting color in the sash.
- **Unity:** *(What is the same?)*
  - Repetition of red and black.

# How is Harmony Achieved?

- **Variety:** *(What is different?)*
  - Flower detail, ruffle down the side front.
- **Unity:** *(What is the same?)*
  - Same color throughout, fitted, repeating lines.

# How is Harmony Achieved?

- Variety: *(What is different?)*
  - Pop of red color on the belt.
- Unity: *(What is the same?)*
  - Royal purple color repeated in the skirt and blouse.

# How is Harmony Achieved?

- **Variety:** *(What is different?)*
  - Pop of color with matching bag and shoes.
- **Unity:** *(What is the same?)*
  - All over polka-dot pattern throughout the dress.

# How is Harmony Achieved?

- **Variety:** *(What is different?)*
  - Different fabrics for the top and skirt.
- **Unity:** *(What is the same?)*
  - Cream color throughout the outfit.
