# Pattern

in Fashion

Pattern

- **Pattern is a <u>repeated</u> decorative design usually consisting of lines, shapes and colors.**

- **Adds visual interest and creates points of emphasis.**

- **Can create illusions to enhance or disguise areas.**

- **Can become a visible expression of personal style.**

1. Naturalistic Patterns

- **Prints that are realistic and appear as they would naturally.**

2. Conventional / Stylized Patterns

- **Prints in which you can recognize the object, but it is not realistic in appearance.**

3. Geometric Patterns

- **Prints based on lines and shapes.**

4. Abstract Patterns

- **Prints that cannot be recognized as real.**
